FILE UPLOAD

Upload a file for deep analysis

Drop any suspicious file directly. We run static analysis, dynamic sandbox detonation, and multi-engine scanning — without it ever touching your machine.

DROP ZONE

Upload failed

We couldn't process this file. See the common reasons below and try again.

→ File too large. Maximum file size is 256 MB.

→ Unsupported format. Some archive types require extraction first.

→ Corrupted file. The file may be incomplete or damaged.

TRY AGAIN

SCAN LIMITS

Max file size	256 MB
Scan timeout	120 seconds
File retention	Never stored
Results kept	30 days
Scans per day	Unlimited

Files are never stored.

Uploaded files are analyzed in memory and immediately discarded. Only the scan result metadata is retained.
